Full stack Developer

Solution-oriented full stack web developer with 4+ years of experience designing and building responsive, scalable web applications. Proficient in modern JavaScript frameworks, backend technologies, and cloud platforms. Passionate about clean code, performance optimization, and delivering impactful user experiences. Experienced in Agile methodologies and Git-based version control.

Experience

Aeroflight Technology Group — *Frontend Developer*   **Sep 2022 – Present**

Key responsibilities:

- Implemented features allowing users to search for flights based on departure and arrival locations, travel dates, and the number of passengers.
- Built an admin panel enabling users to reschedule journeys, change seats, cancel tickets, add baggage, and print e-tickets. Improved UI responsiveness by optimizing React component rendering.
- Utilized Git and GitHub for version control and collaborated with team members on code reviews and pull requests.
- **Tech stack**: React.js, JavaScript, Bootstrap, AWS , Webpack

TechRBM — *Frontend Developer*   **Apr 2021 – Aug 2022**

Key responsibilities:

- Developed and maintained a web application using React.js and Node.js by designing responsive UI pages, building reusable components, integrating RESTful APIs for data flow, and deploying the application to a production server.
- Contributed to the Synergy One Lending (S1L) web project, collaborating directly with U.S.-based clients.
- Developed tools such as Mortgage, Home Refinance, and HELOC calculators to enhance user experience and support client business needs.
- **Tech Stack**: React.js, JavaScript, Bootstrap, Material UI (MUI), Azure

PS Softech Education Pvt. Ltd. — *Web Developer Intern*   **Jul 2020 – Feb 2021**

Key responsibilities: Study Metro – Online Education Platform

- Contributed to the development of an international student admission platform helping students discover and apply to colleges and universities worldwide.
- Developed and maintained reusable, scalable React components to improve code maintainability and UI consistency across the application.
- Implemented dynamic filtering and data-fetching functionality based on user search queries to enhance the platform's discoverability and responsiveness.
- Collaborated with cross-functional teams to integrate APIs and ensure smooth data flow between the frontend and backend.
- **Tech Stack**: React.js, JavaScript, Redux, Bootstrap, Git, GitHub

Education

Bachelor of Science in Computer Science (BSc)
Jiwaji University, 2017

Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS
Frameworks/Libraries: React.js, Next.js, Redux, React Query, Bootstrap, Material UI, Tailwind CSS
Backend & DB: Node.js, Express.js, MySQL
